## INDEPENDENT AUDITOR'S REPORT

To Management of Non-Governmental Organization "Ukrainian Red Cross Society":

### Opinion

We have audited the statement of contributions and expenditures of Non-Governmental Organization "Ukrainian Red Cross Society" (the "Organization") for the year ended 31 December 2019 and notes to the statement of contributions and expenditures, including a summary of significant accounting policies (collectively – "the financial statement").

In our opinion, the accompanying financial statement presents fairly, in all material respects, contributions and expenditures for the year ended 31 December 2019 in accordance with the International Public Sector Accounting Standards "Financial Reporting Under the Cash Basis of Accounting" ("IPSAS – Cash Basis").

### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statement* section of our report. We are independent of the Organization in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (the "IESBA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Ukraine, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Emphasis of Matter – Basis of Accounting

We draw attention to the Note 3 to the financial statement, which describes the basis of accounting. The financial statement is prepared by the Organization to comply with IPSAS – Cash Basis. As a result, the financial statement may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

### Emphasis of Matter – Operating Environment

We draw your attention to Note 2, Note 4 and Note 10 to the financial statement, which indicates that since 24 February 2022 the impact of the ongoing military actions in Ukraine, the magnitude of further developments, the timing of cessation of those actions and final resolution are unpredictable and may adversely affect the Ukrainian economy and the operations of the Organization. Management's plans concerning this impact are also discussed in Note 4 to the financial statement. Our opinion is not modified in respect of this matter.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see [www.deloitte.com/about](http://www.deloitte.com/about) to learn more.

## **Responsibilities of Management and Those Charged with Governance for the Financial Statement**

Management is responsible for the preparation and fair presentation of the financial statement in accordance with IPSAS – Cash Basis and for such internal control as management determines is necessary to enable the preparation of financial statement that is free from material misstatement, whether due to fraud or error.

In preparing the financial statement, management is responsible for assessing the Organization's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Organization's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statement**

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statement.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Organization's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Organization to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statement, including the disclosures, and whether the financial statement represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Notes to the STATEMENT OF CONTRIBUTIONS AND EXPENDITURES

for the year ended 31 December 2019 (In Ukrainian Hryvnias and in thousands)

### 2. OPERATING ENVIRONMENT

Since 2016, the Ukrainian economy has demonstrated signs of stabilization after years of political and economic tension. In 2019, the Ukrainian economy continued its recovery and achieved real GDP growth of around 3.6% (2018: 3.3%), modest annual inflation of 4.1% (2018: 9.8%), and stabilization of the national currency (appreciation of the national currency by around 5% to USD and 11% to EUR comparing to previous year averages).

Ukraine continues to limit its political and economic ties with Russia, given annexation of Crimea, an autonomous republic of Ukraine, and an armed conflict with separatists continued in certain parts of Luhanska and Donetska regions. As a result of this, the Ukrainian economy is refocusing on the European Union (the “EU”) market by realizing potentials of established Deep and Comprehensive Free Trade Area with the EU.

To further facilitate business activities in Ukraine, the National Bank of Ukraine (the “NBU”) starting from 20 June 2019 has lifted the surrender requirement for foreign currency proceeds, cancelled all limits on repatriation of dividends since July 2019 and gradually decreased its discount rate for the first time during the recent two years, from 18.0% in April 2019 to 11.0% in January 2020.

The degree of macroeconomic uncertainty in Ukraine in 2019 remained high due to a significant amount of public debt scheduled for repayment in 2019-2020, which requires mobilizing substantial domestic and external financing in an increasingly challenging financing environment for emerging markets. At the same time, Ukraine has passed through the period of presidential and parliamentary elections. All newly elected authorities have demonstrated their commitment to introduce reforms in order to boost economic growth, while maintaining macro-fiscal stability and liberalizing economic environment. These changes have resulted in, inter alia, improved Fitch’s rating of Ukraine’s Long-Term Foreign- and Local-Currency Issuer Default Ratings from “B-” to “B”, with a positive outlook.

In February 2022, the Russian Federation recognized the temporarily occupied territories in Luhanska and Donetska regions as independent republics and started its military invasion of Ukraine resulting in a full-scale war across the Ukrainian state. On 4 October 2022, president of the Russian Federation signed laws on annexation of parts of Luhanska, Donetska, Zaporizka, and Khersonska regions that has been previously ratified by the country’s Parliament.

The ongoing military attack has led to significant damage to infrastructure, dislocation of the population, and disruption to economic activities in Ukraine. Before August 2022, all ports in the Black Sea area stopped working, which resulted in complete suspension of exports and imports made via seaports. Airports, many roads, and bridges were closed, damaged, or destroyed, further crippling transportation and logistics. Transportation of goods inbound and outbound was performed by railway and trucks, as well with involvement of European carriers, which made it possible for most companies in Ukraine, effective from May-June 2022, to restore and arrange transportation and logistics of their products. On 22 July 2022, in Istanbul, representatives of Ukraine signed an agreement with Turkey and the United Nations on unblocking of ports and resumption of grain exports effective from 1 August 2022, which had been blocked in the Black Sea ports due to the war. The Russian Federation also signed a “mirror agreement” with Turkey and the United Nations. On 17 November 2022, in Istanbul, the parties agreed to extend “the grain agreement” for another 120 days, by 18 March 2023, respectively. For the period from the beginning of the agreement by the end of 2022, about 16.3 million tons of agricultural produce were shipped from the seaports of Ukraine.

## Notes to the STATEMENT OF CONTRIBUTIONS AND EXPENDITURES

for the year ended 31 December 2019 (In Ukrainian Hryvnias and in thousands)

In late April 2022, Ukraine also encountered a significant lack of fuel due to the need to create new logistics supply routes from Europe; the problem was resolved during May-June 2022. In October–December 2022, Ukraine witnessed massive power outages for the population and businesses due to a significant damage to power grids caused by shelling from the Russian Federation, which also caused problems with water and heat supply. The Government introduced a range of emergency measures to resolve those challenges and stabilize the economy. Effective from February 2023, the situation in the energy system of Ukraine improved and stabilized.

As a result of the military invasion of the Russian Federation and the start of the full-scale war, the economy of Ukraine suffered serious consequences. In 2022, the drop in Ukraine's GDP reached 30.3% (in 2021, real GDP grew by 3.2%). Starting from February 2022, the inflation rate increased in annual terms up and reached 26.6% by the end of the year (2021: 10.0%) because of the disruption of supply chains and production processes, uneven demand, increased business costs, increased global prices, limited supply of certain commodities, as well as physical destruction of assets of a range of companies caused by the Russian attack on Ukraine. The national currency devalued, according to the official exchange rates at the end of 2022, by 34% against USD and by 26% against EUR comparing to the averages at the end of 2021.

From the onset of the full-scale war, the National Bank of Ukraine (the "NBU") has introduced a range of temporary protective measures, such as restriction of cross-border payments in foreign currency, fixing the official exchange rate for major currencies (on 21 July 2022, the NBU adjusted the official UAH/USD exchange rate by 25% to UAH 36.5686 per USD 1). Despite the increase in the official exchange rate of USD, the disparity between the official and market exchange rates remains. From the beginning of the war, the NBU fixed the discount rate at the level of 10% due to the forced administrative restrictions, however, later, in June, it increased it to the level of 25%. In 2023, the NBU additionally tightened the requirements to obligatory reserves of banks. The NBU stated it would revert to the traditional format of inflation targeting with a floating exchange rate after the economy and financial system return to their normal operational mode.

At the same time, thanks to the assistance from partners, the NBU's international reserves as at the end of 2022 exceeded the pre-war level and reached USD 28.5 billion. In August 2022, the Ministry of Finance of Ukraine postponed payments on sovereign Eurobonds for two years and amended the terms and conditions for issuing government derivatives by reducing financing needs. In general, the Ukrainian Government continues to service external debt obligations, and the banking system remains operational and maintains stability.

The approved state budget of Ukraine for 2023 presupposes that budget revenues be two times lower than expenditures, and the deficit will be about 21% of GDP (or USD 35.5 billion). It is expected that the budget deficit will be financed through financial assistance from foreign partners in the form of grants and preferential long-term interest-free loans.

The Ukrainian Government received a significant international support, financing and donations from international organizations, along with individual countries, and charities to support financial stability, social related payments, and military needs. During 2022, the volumes of declared international financial aid amounted to more than USD 65 billion, whereas the volumes of received international financial aid were at the level of more than USD 32 billion. The volumes of military assistance exceeded USD 16 billion and humanitarian – USD 41 billion.

**Notes to the STATEMENT OF CONTRIBUTIONS AND EXPENDITURES**

**for the year ended 31 December 2019 (In Ukrainian Hryvnias and in thousands)**

On 15 March 2022, the Verkhovna Rada of Ukraine introduced some changes to the tax legislation and adopted the Law of Ukraine No. 2120-IX “On Amending the Tax Code of Ukraine and Other Legislative Acts of Ukraine Concerning the Effect of Norms for the Martial Law Period”. Exporters face problems and delays in VAT refunds due to the need to conduct tax audits to receive refunds.

In March 2022, the system operator of the Ukrainian electricity network, together with European operators, completed integration of the Ukrainian and European energy systems.

On 23 June 2022, the European Council summit in Brussels decided to provide Ukraine with the candidate status to the European Union. Ukraine is going to become a participant of the EU programs and initiatives opened for candidates.

On 27 September 2022, the Cabinet of Ministers approved resolutions that would allow Ukraine join the Common Transit Convention and Convention on the Simplification of Formalities in Trade in Goods (the so-called “customs free regime”) from 1 October 2022. The resolutions open access to an unlimited range of Ukrainian businesses to authorizations and simplifications of joint transit procedures similar to those available to economic operators in the 35 member states of the Convention.

During 2022, the Government introduced zero quotas on exports of gold and silver (except for bank metals), buckwheat, table salt, fuel oil, and fuel wood. Exports of chicken meat, cattle, cattle meat, eggs, mineral fertilizers, rye, oats, millet, and sugar are subject to licensing. Exports of gas are prohibited.

The war between Ukraine and the Russian Federation is ongoing, resulting in a significant destruction of property and assets in Ukraine and other serious consequences. The consequences of the war are changing day to day, and the long-term implications are unclear. Further impact on the Ukrainian economy depends upon the way the Russian military invasion in Ukraine is resolved and upon the success of the Ukrainian Government in realization of new reforms, recovery strategy after the invasion is stopped, and the transformation of the state to acquire the European Union membership, as well as cooperation with the international funds.

**3. SIGNIFICANT ACCOUNTING POLICIES FOR RECOGNITION AND MEASUREMENT OF CONTRIBUTIONS AND EXPENDITURES**

**Basis of preparation**

The Statement of Contributions and Expenditures of the Organization has been prepared in accordance with the International Public Sector Accounting Standards “Financial Reporting under the Cash Basis of Accounting” (IPSAS Cash Basis), which is a comprehensive basis of accounting other than Ukrainian Accounting Standards. On this basis, revenue is recognized when received rather than when earned, and expenditures are recognized when paid rather than when incurred.

This financial statement is separate financial statement of the Organization. The Organization does not prepare consolidated financial statement.

## UKRAINIAN RED CROSS SOCIETY

### Notes to the STATEMENT OF CONTRIBUTIONS AND EXPENDITURES

for the year ended 31 December 2019 (In Ukrainian Hryvnias and in thousands)

#### Functional and presentation currency

The functional and presentation currency of the Organization is the Ukrainian Hryvnia ("UAH").

#### Foreign currencies transactions

Transactions in currencies other than functional currency are initially recorded in UAH at the official rates of exchange set on the dates of the transactions by the National Bank of Ukraine. Cash balances denominated in foreign currencies are translated into UAH at the exchange rates established by the NBU at the end of the reporting period. All foreign exchange gains/(losses) are recognized in the Statement of Contributions and Expenditures.

The relevant exchange rates were as follows:

	As of 31 December 2019	Average for the year ended 31 December 2019	As of 31 December 2018	Average for the year ended 31 December 2018
UAH/USD	23.6862	25.8373	27.6883	27.2016
UAH/EUR	26.4220	28.9406	31.7141	32.1341

#### Cash

Cash includes cash in banks kept at current accounts. Cash is divided into the cash with temporarily restricted and unrestricted use. Donors' contributions made without stipulations are reported as unrestricted cash. Contributions received with a donor's stipulation which restricts their use are reported as temporarily restricted cash.

Unrestricted cash is the cash with unlimited use, as well as the funds intended for general and administrative purposes.

#### Income tax

As a non-government organization incorporated under Ukrainian law, the Organization is not subject to corporate income tax except for those transactions when income is derived from commercial activities.

#### 4. GOING CONCERN

This financial statement has been prepared on the assumption that the Organization will be able to continue as a going concern and that it will continue in operation for the foreseeable future.

However, as noted in Note 2 and in Note 10, on 24 February 2022, Russian forces began a military invasion of Ukraine, which led to a full-scale war throughout Ukraine. The operating environment remains risky and with a high level of uncertainty. Therefore, the going concern assumption is to be carefully assessed by management to ensure the Organization has sufficient funding for its activities.

## Notes to the STATEMENT OF CONTRIBUTIONS AND EXPENDITURES

for the year ended 31 December 2019 (In Ukrainian Hryvnias and in thousands)

Management believes that preparation of this financial statement on a going concern basis is appropriate due to the following factors and actions taken:

- There are no damages caused by the war and there are no assets in occupied territories.
- During the year ended 31 December 2020 and during the period from 31 December 2020 till the date of issuance of this financial statement, the wide range of new projects with the donors of the Organization were started. Due to the fact that one of the Organization's principal objectives of the activities is to protect human life, prevent human suffering during armed conflicts, the amount of contributions from donors increased significantly during 2022 after the beginning of the war in Ukraine, that indicates, that the Organization will be able to perform its operations in the foreseeable future.
- Significant increase in contributions from donors mostly relates to the programs aimed at overcoming the consequences of war, providing assistance to the population affected by the war and improving medical and social infrastructure in Ukraine.
- The Organization has cash and cash equivalents balance as at 31 December 2019 and subsequently at sufficient level to perform its operations.
- During the period after the reporting date and before the authorization of this financial statement, the Organization continues its operations and manages to meet main goals of the Organization's activities in 2020-2021 and 2022.

Considering the reasons above, management believes that preparation of this financial statement on a going concern basis is appropriate, and the Organization has adequate resources to realize its assets, discharge its liabilities and continue in operational existence for the foreseeable future.

## 5. CONTRIBUTIONS

Contributions comprise cash obtained from donors and returns of unused cash under the programs to donors. For the year ended 31 December 2019 and 31 December 2018, the Organization obtained grants from the following donors:

#### 8. CONTINGENCIES

##### Taxation

The Organization is a non-profit organization and specific taxation requirements are applied to it. Inconsistent application, interpretation and enforcement of tax laws can lead to litigations which, as a consequence, may result in the imposition of additional taxes, penalties, and interest, and these amounts can be material. Facing current economic and political issues, the Government has implemented certain reforms in the tax system of Ukraine by adopting the Law of Ukraine "On Amending the Tax Code of Ukraine and Certain Laws of Ukraine" which was effective from 1 January 2015, except for certain provisions which took effect at a later date. Management believes that the Organization has been in compliance with all requirements of the effective tax legislation.

##### Legal issues

The Organization is subject to legal actions and complaints in its ordinary course of business. Management believes that it is unlikely that a significant settlement or loss of assets will arise out of actions and complaints.
